SHAFER TALKS TO STEEL MEN

Great Crowds of Strikers Applaud Leader at New Castle.

GOMPERS WILL AID

Promises the Amalgamated That the Federation Will See Them Through.

STRIKE ON TONIGHT

New Castle, Pa., August 10.—Thousands of steel workers from all the surrounding towns re-inforced by men from other labor organizations gathered here today to hear President Shaffer discuss the steel strike. The great crowd gave him an ovation. Shaffer delivered a fervid address on the situation describing the course of the conference and declared that the Amalgamated was forced to take the steps that it had.

Trouble at McKeesport Pittsburgh, August 10.—Word has reached here that the work of removing the Dewees Wood mill from McKeesport to a new site near Vandergrift began this morning. The owners say that they are leaving McKeesport because of the hostility of the people of the city. Secretary Williams of the Amalgamated declared this morning if this intention was fully carried out and ruined the town in retaliation against the men who stood up for their cause it would act as a boomerang on the trust.

Shaffer left for New Castle this morning to speak at a great mass meeting there this afternoon. To-night he speaks in McKeesport. Affairs are quiet at the Amalgamated headquarters this morning. The officials present refused to discuss the strike.

Strike in Non-Union Mill Wheeling, W. Va., August 10.—The men in the large Riverside iron works struck this morning. The plant was being operated as a non-union mill.

AID PROMISED BY GOMPERS Pledges the Steel Strikers His Moral and Financial Support

Pittsburgh, Pa., Aug. 10.—Within twenty-four hours of the going into effect of Shaffer's general strike order President Gompers of the American Federation of Labor issued a statement pledging the moral and financial support of that order to the Amalgamated association. Simultaneously with Gompers' declaration came a statement from Persifer F. Smith that he had received orders from President McMurry to tear down the Dewees wood plant at McKeesport and remove it to Kisminetas Valley. This, he says, he will do forthwith.

The official estimate of the mills that will close today is as follows:

Forty-five thousand men are now idle under the first strike call, and that the general call will increase the number to 125,000. The National Tube company has 30,000 workmen, the Federal 18,000, while the National Steel company has 12,000, making a total of 125,000, as follows: Skilled men now out, 20,000; others who are idle as a result of the strike, 45,000; National Tube company employees, 30,000; Federal Steel company employees, 18,000; National Steel company employees, 12,000; total, 125,000.

The plants which will be affected are the American Tinplate company, American Steel Hoop plants, American Sheet Steel plants, American Steel and Wire mills, Federal Steel company's plants, and National Tube company. Ohio will have 25,000 idle men, Pennsylvania 17,000, Indiana 10,000, Illinois 30,000, making a total of 82,000, while New York, Michigan, West Virginia, Wisconsin, Iowa, and other states will have 43,000 idle men.

HICCOUGH LASTS ELEVEN DAYS

After Resisting Various Remedies the Attack Suddenly Subsides Racine, Wis., August 10.—Charles Olson, a teamster, after suffering with hiccough for eleven days and who was expected to die, was last night relieved and will recover. Every known remedy was used to help the suffering man but without success. The trouble stopped as suddenly as it came but left the patient very weak. Today he is able to be up and about the hotel.

OPPOSE CUSTOM OF TREATING

Religious societies Asked to Fight Habit Among Drinkers Hartford, Conn., August 10.—The Catholic Total Abstinence Union of America today passed resolutions condemning the custom of treating. Efforts will be made from this time forward to spread the anti-treating doctrine and to induce all religious societies to take up the work. Total abstinence was reaffirmed as the best method of stopping the drink evil.

SAVED HER HUSBAND'S LIFE

An Indiana Farmer's Wife Grabs a Hoe and Drives Off a Bull Madison, Ind., August 10.—William Roseberry, a farmer of Graham Township, was thrown fifteen feet into the air by an infuriated bull, which afterwards trampled him, smashing five ribs and otherwise seriously injuring him. Roseberry called to his wife for a shot gun, but she grabbed a hoe and put the animal to flight, thus saving her husband's life.

MAXIMUM RATE CASE

Schedule Fixed by South Dakota Declared Unconstitutional by the United States Court.

Sioux Falls, S. D., August 10.—The schedule of maximum freight and passenger rates fixed for the railroads by the state commissions was today declared unconstitutional by Judge Garland of the United States Court. He held that the schedule would operate to confiscate the property of the railroad companies without due process of law or just compensation. The commissioners therefore are perpetually enjoined from putting into effect the maximum rate schedule.

The judge further decided that when circumstances have so changed that the rates established by the commissioners would yield the railroad companies a reasonable compensation the commissioners may apply to the court for a further order in their behalf.

The case has been in the courts since 1897 and was once decided in favor of the commissioners.

MRS. NATION IS SUED FOR DIVORCE

Husband of Saloon Smasher Says Her Crusades Have Caused Her to Abandon Her Home.

Topeka, Kas., Aug. 10.—In the District Court of Barber County, Kas., today David Nation brought suit against his wife, Carrie Nation for divorce. He alleged that she had abandoned him to engage in a joint smashing crusade, causing him worry and humiliation. He said he had repeatedly urged her to give up the crusade and return home, but she had treated his overtures with contempt.

When informed of the divorce proceedings Mrs. Nation, who has just been released from jail here, said:

"I am glad that David has taken the step. Unless there is something in his petition to reflect on my character I shall not oppose the suit. I thought that I loved David when I was married to him twenty years ago, but it was a fleeting fancy. I am sure that he never loved me; he was just sorry for me because I was alone in the world. We have both been living a lie, and it is a relief to see the end. David isn't a bad fellow, but he is too slow for me."

"Will you marry again if you have a chance?" was asked.

"Now don't you get flip with me, young man," Mrs. Nation replied.

"I'll answer your question since you've asked it. I would not surrender my freedom again for the best man that ever stretched shoe-leather."

For August Bort, Bailey & Co. have made a deep cut in all ladies' colored shirt waists.

MISS BEALS RESIGNS AS MARSHAL; HAD A GUN PLAY WITH BATT CARR

The Job at Lawton, O. T., Was Too Tough for the Young Woman—Mighty Glad to Get Out.

Wichita, Kas., August 10.—Miss Mattie Helen Beals, the Wichita young woman who drew a farm near Lawton, O. T., in the government land allotment, has returned from that country with nothing but criticism for her new townsmen. She was marshal of the town of Lawton for one day and says that that was long enough. She had an encounter with "Bat" Carr which gave her as severe a shock as when she heard the news that James Woods had taken nearly all of the valuable land on the south side of the Lawton town site.

Miss Beals said: "I have taken my farm in a fairly good position. Since Woods has commenced to lay out his place in town lots, I think I may be able to get \$35,000 for it and maybe more. I shall, of course

GOLD BULLION STOLEN FROM THE SELBY SMELTER HAS BEEN FOUND

Some Theatrical Notes and Gossip

The work of getting the Myers Grand theatre ready for the coming season is being pushed rapidly and when it is opened to the public for the first time after the summer vacation next Tuesday evening many improvements will have been made in the house. The attraction next Tuesday evening will be Charles Blaney's funny farce comedy, "A Baggage Check."

The dramatic season opens with several especially strong attractions this year. Dick Ferris, comedians who are in the city getting ready for the year's work, will open their season with a week of repertoire beginning August 26. This will be the formal opening of the local theater.

Dick Ferris and his wife are always favorites in this city and this year they have surrounded themselves with an exceptionally strong and capable company. They also have a very fine repertoire of plays.

Of the early attractions, however, the most notable are Braay's "Lovers' Lane," which comes to this city Sept. 10, and Otis Skinner whose new production of "Francesca de Remini" is to be seen by his Jamesville admirers Sept. 23.

"Lovers' Lane" has had an almost unprecedented run at McVicker's theater, Chicago, during the summer months, drawing packed houses even on the hottest evenings. The play has received the highest praise both from dramatic critics and from the people, two powers who do not always think alike. Many people from this city have seen the play during the Chicago run and all seem enthusiastic in their admiration of it. Its love stories are sweet, its lovers are interesting characters, its incidents are quaint and entertaining and its children are adorable. Manager Myers has a flash light picture of the McVicker's Theater, taken on the hottest night during the summer. The photograph shows an immense audience which packed every corner of orchestra, balcony and gallery and surely no more eloquent proof of the drawing power of "Lovers' Lane" could be given.

For Otis Skinner and his grand

new romantic production there is sure to be a welcome worthy of the actor and of the people of Janesville. He is getting ready for his production now and will open at Chicago the last of this month. For the first time he comes to this city at the beginning of the season when he is fresh and his production is new. "Francesca de Remini" is said to be the grandest thing he has ever attempted, the press of Chicago is greatly interested in its coming presentation and Janesville is indeed fortunate in securing Mr. Skinner directly after his Chicago engagement.

Eugene Jepson, the comedian who is to accompany the Klaw & Bialanger Comedy Company in its forthcoming tour in "The Rogers Brothers in Washington," relates an amusing incident in his experience as a member of a stock company where the bill was changed each week. Bulwer Lytton's "Money" was the attraction billed for the coming week. The actors and actresses had to provide them selves with mourning costumes—an essential to the production. Mr. Jepson, with another member of the company, visited one of the leading dry goods stores. Both being smoothly shaven, they looked as solemn as owls. After buying handkerchiefs with deep black borders they called for gloves. "Cheap or the best kind?" asked the salesgirl. "Oh, the cheap will do," replied Mr. Jepson, then adding as if to himself, "It is only for a short time, we'll soon get this affair over." The girl looked at him in awe for a moment and then, as she took down the gloves, said in a solemn stage whisper to a companion, "His mother-in-law!" Jepson heard her and indulged in one of those all-over-the-face laughs for which he is famous on the stage. The salesgirl looked at him as she bundled his gloves with an expression which plainly said—"heartless brute!"

The production of "Barbara Frietchie" which William T. Keough

will send out the coming season will be the only organization on the road portraying Clyde Fitch's beautiful play. The complete scenic equipment built especially for Charles Frohman's production of the play at the Academy of Music, New York, together with all the original effects and costumes will be seen during the engagement of Mr. Keogh's company in this city during the winter. The role of "Barbara" will be interpreted by Miss Frances Gaunt, a young actress of well known ability who two seasons ago replaced Miss Viola Allen as leading woman of "Under the Red Robe." She is very clever as well as a very pretty woman, with an exceedingly strong personality. The rest of the cast will comprise many who are members of Miss Julia Marlow's company when she originally produced Barbara Frietchie. Each and every part has been filled with particular attention to the fitness of each artist therefore, local theatre goers can look forward to a genuine treat when the fair "Miss Barbara" comes to town.

The date of Mr. Tim Murphy's appearance in this city in his new play of Washington life, "A Capital Comedy," by Paul Wilstach, has been decided upon and announced. The popular comedian will produce his latest success here on Saturday evening, October 19. This piece made an instant success last spring on its own merits and Mr. Murphy's dramatic skill, but the comedian has surrounded himself with company selected especially for the parts they are playing and he has provided an elaborate scenic production. Indeed the local management will furnish nothing on the stage except lights and the drop curtain. All the pictures have been painted by Young after models prepared by Mr. Murphy himself, who spent the entire month of June in Washington with Mr. Wilstach photographing the actual localities of the action.

Robert Taber, Kate Rorke, Cliffe, Bucklaw, Basil Gill, Rawson Buck-

ley, W. Modgan, Julius Cross, Beverly Sargeant, Nora Kerin, Flossie Wilkinson, and Constance Collier will play the principal roles in Klaw & Erlanger's production of "Ben-Hur" in London next March. Cooper Cliffe made a hit in this country several years ago in support of Wilson Barrett, playing the demon in the dramatic version of Hall Caine's story of that title presented at her Fifth Avenue theatre. Miss Sargeant was formerly a favorite in this country. Kate Rorke, who will play Mother of Hur, has appeared in America with success.

A well known young man is not in favor with his best-beloved and the cause of it all was that old-fashioned worker of mischief—jealousy. His sweetheart went camping with a party of young people and he was not invited. He didn't like it a little bit and he told his sweetheart so before she left with the others but his protest didn't seem to have the weight which it ought to have had. Anyways the only girl in the world for him gave him to understand that "there were others" so far as she was concerned by going camping with the "bunch" and leaving him all by his lonesome. After she was gone he brooded over the good time she was having with other fellows and one night he couldn't stand it any longer and he went to take her riding. Instead of taking her back to the up-river camp he brought her home. The next day one of the young gentlemen in the camping party came after her and took her back. A few days later her sister appeared at the camp and told the young lady that their little brother was very sick. Very much worried she jumped into the carriage and there was a rapid ride to this city. As the two sisters neared home the heroine of this little story was told that it was all a joke and that the jealous lover in the case had offered

COLOMBIA OPENS THE WAR

Armed Force Under Senor Valencia Invades Venezuela.

IS BENT UPON PUNISHMENT.

The Colombian Minister of War Is Bringing Re-Inforcements from Bogota—"If War Occurs," Says an Official, "Colombia Will Be Victor."

Caracas, Venezuela, Aug. 10.—A new invasion of Venezuela is being conducted by Senor Valencia, the Colombian minister of war. He is bringing reinforcements from Bogota. The new invasion took place yesterday morning. The Venezuelan government announces this news.

Explains Colombia's Action.

Washington, Aug. 1.—"Colombia has adopted the policy of the United States toward France in Mexico. So long as the rebellion was strong the United States temporized with Napoleon III, but the moment the confederacy was broken it energetically acted. Armed Venezuelan forces have invaded Colombia and Venezuela has given other assistance to the rebels. Now that the latter have been reduced to guerrilla bands, Colombia will settle her accounts with her neighbor." This statement was made today by an authority on Colombian affairs. He declined to permit the use of his name because to do so would subject him to serious criticism. At the same time what he stated may be regarded as an official expression based upon the facts that have thus far come to light. "I can not doubt," he continued, "that there must be something in the rumors of war. Though differing in details, the reports agree in certain general statements, which have been confirmed by Mr. Russell, the charge d'affaires, in an official report to the State Department. If war occurs Colombia, by reason of her larger army, will undoubtedly be the victor." While officially inclined to minimize the seriousness of the situation in Colombia and Venezuela, the State Department authorities unofficially admit the situation is serious. The Navy Department formally admitted today that if any further developments should occur the entire North Atlantic squadron would proceed to Colon. The Wisconsin will be got 800 miles nearer Panama as a result of the orders issued today. Upon arrival at San Francisco she will steam at once for San

COMMON PROPERTY

Public Praise is Public Property—Janesville People May Profit By Local Experience.

Grateful people will talk Tell their experience for the public good. Janesville citizens praise Doan's Kidney Pills. Kidney sufferers appreciate this. They find relief for every kidney ill. Read what this citizen says:

Mr. E. T. Fish, of 355 Racine St., proprietor of the Fish Dray Line, says: "When I was twenty years of age I fell injured my back, and ever since that I was troubled more or less with a dull, aching pain across the loins. It never laid me up but it was often painful and annoying. Of late years I have gone to a physician every six months and had myself thoroughly examined under the impression that there might be something wrong with my kidneys. The diagnosis always resulting in the physician claiming these organs were sound, but as the pains existed when I happened to notice in our Janesville papers that Doan's Kidney Pills were guaranteed to cure just such trouble, I procured a box at the People's Drug Co.'s store, and took them. Doan's Kidney Pills are a good preparation. My back has not ached since I used them. I have heard others speak very complimentary of them and if I did not know their merit and required such a medicine I would consider it a favor if some one suggested their use to me. HENRY OF ORLEANS DIES.

Was the Scapgrace Son of the Duke of Chartres.

Saigon, French Cochinchina, Aug. 10.—Prince Henry of Orleans died at 3:30 p.m.

He was the scapgrace son of that gallant duke of Chartres who, during the civil war in America, served on the staff of Gen. McClellan, along with his elder brother, the count of Paris. He was on his way around the world, with the intention of returning via the United States and spending September at Newport, when overtaken at Saigon by the complication of maladies which included, among other things, abscesses of the liver. He was one of the most devoted admirers of Miss May Goelet, and when she was at Paris spent so much time in her company that on several occasions he was reported engaged to her. Indeed, there is no doubt that if he had had his way he would have led the richest of American heiresses to the altar. But both Miss May Goelet and her mother, though fond of the prince, and content to have him in the train of their admirers, hesitated about becoming more closely related to him, owing to the numerous unsavory episodes, financial and other, in which he had been implicated, and which were of such character that the Spanish premier actually announced in the cortes at Madrid that the offer of marriage which the prince had made for the hand of the princess of the Asturias had been rejected on the ground of his profligate behavior.

The prince achieved some distinction as an explorer of Central Asia and Abyssinia. Although the value of his work in this particular has been called into question, yet he was decorated for it with the cross of the Legion of Honor by the late President Faure. He had professed allegiance to the republic, but nevertheless joined the nationalist conspiracy for its overthrow, and had been looked upon by many as a rival pretender to the duke of Orleans, his first cousin, with whom he was on terms of open enmity. Whereas, however, the duke aspired to be king of France, Prince Henry aimed at becoming president of the republic. He was bankrupt and had, for a considerable time been subject to judicial control in financial matters.

EXILE FOR BURGHERS.

Those in Arms Must Surrender or be Banished Forever.

London, Aug. 10.—A parliamentary paper has been issued containing the proclamation issued by Lord Kitchener Aug. 7 in accordance with instructions from the imperial government, the governments of Cape Colony and Natal concurring. The proclamation says:

"All commandants, field cornets and leaders of armed bands, being burghers of the late republics and still engaged in resisting his majesty's forces, whether in the Orange Colony, the Transvaal or other portion of his majesty's South African dominions, and all members of the late governments of the Orange Free State and Transvaal, shall, unless they surrender before Sept. 15, be permanently banished from South Africa.

"The cost of the maintenance of the families of all burghers in the field who have not surrendered by Sept. 15 shall be recoverable from such burghers and shall be a charge upon their property, removable and immovable, in the two colonies."

The preliminary correspondence shows that the proclamation is based upon suggestions which the government of Natal forwarded to Colonial Secretary Chamberlain July 24, and that the date Sept. 15 was recommended by Lord Milner.

Bourke Cockran is Insulted.

London, Aug. 10.—The Morning Leader says that while Winston Spencer Churchill was showing Bourke-Cochran the House of Commons last evening he was about to introduce him to another Conservative member, stated to be Colonel Lee, when the latter, looking at Mr. Cockran, said: "I have seen this gentleman once before. He was then welcoming some Boer delegates in Washington," and, turning on his heel, walked off. Colonel Lee was formerly military attaché of the British embassy at Washington, and accompanied the American troops to Cuba.

Native Prince Is Punished.

Vancouver, B. C., Aug. 10.—The steamer Moana, from Sydney, brings the story of the deportation of the native crown prince of the Gilbert Island. It is stated that the prince defied the authority of the British commissioner, and was working up an insurrection among the natives. The commissioner thereupon is said to have ordered the crown prince banished to a neighboring island for six months.

Von Ketteler's Body Home.

Bremenhaven, Aug. 10.—The German steamer Palatia, which sailed from Tsingtao June 11 with the remains of Baron von Ketteler, the German minister at Pekin who was murdered in the early days of the Chinese trouble on board, arrived here this morning and Baron von Ketteler's body was brought ashore.

INJURED IN LEHIGH WRECK.

Two Coaches of Black Diamond Express Derailed at North Leroy.

Rochester, N. Y., Aug. 10.—Ten persons were hurt, two probably fatally, in an accident on the Black Diamond express, east bound, on the Lehigh Valley Railroad; near North Leroy, N. Y., shortly after noon. Those injured are: L. M. Ames, porter, New York; S. M. Bentley, Pullman porter, New York; F. H. Crane, Brooklyn; Mr. and Mrs. Luke Johnson, Lakewood; may die; Fred Keene, Lakewood, N. J.; Mary Kellar, Lakewood, N. J.; R. W. Ross, Buffalo; L. M. Rop, Brooklyn. The last two coaches jumped the track a short distance west of the station, and after crashing along the ties for ten rods were hurled to one side. The rear coach landed bottom up in the ditch. The wreck is thought to have been caused by the rails spreading.

Sixty Girl Campers Poisoned.

Catskill, N. Y., Aug. 10.—The girls' summer camp here was in a panic today. Sixty young women, mostly residents of Albany and Poughkeepsie, were suddenly taken alarmingly ill, displaying symptoms of poisoning. On inquiry it was found that the girls had partaken of corned beef, not the canned variety, however. Physicians say they will recover. The camp was established here two years ago by Mrs. Harriet Christie of Albany for working girls.

Queer Move in Robbery Case.

San Francisco, Aug. 10.—Winters the man accused of the big bullion robbery, was taken from the city by officers today on the tug Sea Witch. The detectives and their prisoner landed later at Crockett, a little town near the smelter. It was reported that Winters was badgered into a confession and that the officers had gone to get the treasure.

David Nation Asks Divorce.

Medicine Lodge, Kan., Aug. 10.—David Nation, who is now visiting in Iberia, Ohio, has brought suit for divorce from his wife, Mrs. Carrie Nation, the saloon smasher. The papers were filed today by his attorney. Mr. Nation alleges that his wife held him up to public ridicule, failed to attend to her family duties and deserted his home.

Must Pay the Special Tax.

Washington, Aug. 10.—Commissioner Verkes of the internal revenue bureau has held that a dealer in "puts," "calls," and "spreads" is subject to special tax and stamp tax under the first clause of paragraph three, section eight of the act of March 2, 1901, notwithstanding the fact that his business is not the same as that commonly known as "bucket-shop."

Tariff on Potatoes Raised.

Chicago St. Paul roads have raised the rate on potatoes from St. Paul and Minneapolis to Chicago from 13 cents to 17 cents a 100 pounds. The reason assigned for the advance is that the potato crop in the Missouri bottoms and Illinois and Michigan are failures this season and in consequence vast quantities of Minnesota potatoes will be shipped. Prices still remain high, and the railroads from this territory control the potato traffic and can charge as high rates as they please without fear of competition.

All diseases are more or less comprised in the above four ailments, all of which have their origin in the Stomach. To cure each, any or all of them, begin right. Begin with the Stomach. Begin with Laxakola, the great tonic laxative. It speedily and painlessly acts on the bowels, cleanses the stomach, stimulates the liver, corrects the kidneys, allays nervousness, assists digestion, while its marvelous tonic properties tones up the system while curing it, and speedily causes a natural and permanent condition of health.

Laxakola is the best Children's remedy in the world, and the only one that builds up the children's systems while acting as an all-around blood-purifier and tonic. It speedily clears the congested tongue, checks colds and simple fevers, and promotes sleep. Children like it and ask for it. Mothers are its greatest friends; they use it and recommend it. THE BOY WHO SMOKES.

"Come in John and have a cigar."

Two boys were standing on the corner. The speaker, a lad of sixteen, was a veteran smoker. His companion, about the same age, had not yet formed the habit, and had no intention of doing so.

It required a little moral courage to say to Frank:

"No, thank you, I don't smoke." And he submitted good naturedly to the bandying elicited, until Frank said: "Well, do as you please, but I wouldn't allow my mother to tell me I couldn't smoke, or do anything that I wanted to. Some boys never get away from their mother's apron strings."

"That's all right, Frank, you may smoke your way into life if you want to, but I propose to go in with a clear head, and a clean record, and mother's apron strings are a good thing to tie to."

John made no pretension to wisdom, and yet he uttered a profound truth, that many boys might heed with profit.

The average boy considers smoking an accomplishment. Unless the appetite is inherited, which is rarely the case, he cultivates the habit, not for love of the weed, but because he thinks he must keep up with the procession, and the procession smokes.

The average boy, during the age when boys know it all, does not devote very much time to thought, or planning for the future. The height of his ambition is to have a good time, and smoking is one of the necessary acquisitions.

He is not a close observer of men, or of events, and if you attempt to reason with him, the effort is usually disappointing.

If you tell him that the use of tobacco during the years of physical development is injurious, he tells you that it may be to some people, but it can't hurt him.

If you suggest that his brain will be less active when clouded in smoke, he looks at you with incredulity, and you realize that the era of inactivity has already commenced.

If you say to him that the finer sensibilities of his nature will be sacrificed, and that he will go into life dwarfed and a victim to selfish appetite, you are speaking in an unknown tongue, for he has yet to discover that life means more than self-indulgence and gratification.

The habit of smoking is so common, and men so universally indulge in it, that it is not at all strange that boys are close imitators. And yet it would be difficult to find an old smoker, who would recommend his own boy or any other boy, to form the habit.

He knows from observation, and possibly from experience, that it is ruinous to the physical, the mental and the moral development of the boy, and so he says to the lad: "If you feel that you must smoke, wait until you are of age, and then if you can't resist the temptation, smoke."

A great deal of energy is expended in trying to reform old topers, and every effort is exhausted to save young men from drink, but aside from cigarette legislation, but little is attempted to send young men into life free from the tobacco habit, and yet it is a fact that thousands of boys are being poisoned by it in body and mind every year.

It is the first step over the line from home restraint, and it is a downward step that no boy can afford to take.

Aside from the evil effects, it is usually the first step in deception, and the boy never meets the mother's smile or the father's eye with the same frank, open countenance after the first cigar.

There is another feature of the tobacco habit that young men frequently overlook. A feature that often retards their progress and prevents them from grasping opportunities that would otherwise come to them.

Every young man is watched by business men, not with the idea of reform, and with no disposition to criticize, but simply watched from a commercial standpoint.

The merchant wants a young man behind his counter. He has half a dozen boys in mind, all honest and willing to work, and as he passes on them in mental review, he selects the boy of clean habits and

good morals. He may be a smoker himself, but he doesn't want a boy in his employ who has formed the habit.

The banker has a place for a boy in his institution. He knows that the young man who smokes, has formed a habit of reckless expenditure, and that his associations are not always the best.

If he places him in a position of responsibility and trust, he is fearful of the outcome, so the place is given to the boy who had regard for his mother's apron strings.

And so in all the various channels of work, preference is given to the boy who says "No" to tobacco as well as to intoxicants.

* * *

Many boys have smoked away the opportunities of life, never realizing that the nickel cigar is a handicap as effective as the breath of rum or the midnight revel.

The Chicago ice inspectors report that much of the ice sold in that town is "full of rubbish." The only thing to do, therefore, is to boil the ice, strain it and freeze it in an ice cream mill.

President Shaffer says "the president of the United States has an easy job." Dewey, it will be remembered, said the same thing—and we all know what happened to him.

According to dispatches from Chicago John P. Altgeld has given the world a new one—the moneyless millionaire. John P. Always was a pneumatic sort of a fellow.

The fact that Chicago has more constables than the law provides for probably accounts for the fact that some of them are lawless.

mand of the camp, while the First regiment will have its full equipment of officers headed by Col. Otto Fall in attendance. More than usual attendance will be given this year to the care which the men take of themselves while they are in camp. This was one of the lessons learned from the Spanish-American war where it was found that the volunteers, while for the most part proficient in drill, were not so well up in the detail of camp life necessary to keep health and to keep camps in a sanitary condition.

REGULAR CAMP ROUTINE
A practice march will also be held during the encampment in which the whole regiment will participate. On just what day it will be held has, however, not yet been decided. The regiment is very much in hopes that Gov. La Follette will feel well enough to visit the camp some day of next week, but if he is unable to do so his place will be taken by Lieut. Gov. Stone.

The regular routine of the camp as fixed by general orders, is as follows: Veville, 5:30 a. m.—police and mess call; 6; sick call, 6:30; first sergeant call, 7:30; guard mount, 7:45; drill call, 8:30; recall, 11; mess call, 12; drill call, 2:30; recall, 4:30; police call, 4:45; mess call, 5:30; parade, first call, 6:05; assembly, 6:25; tattoo, 9:30; call to quarters, 10; taps, 10:15.

STRANGE DISCOVERY IN PENNSYLVANIA
Botanists of Luzerne county, Pennsylvania, are interested in a strange discovery along the Susquehanna river.

The members of a class found a species of violets growing in a solid bank of culm. The roots were imbedded in the coal and their origin is traced, it is said, to seeds of the coal age.

VEGETARIAN OBJECTS TO VACCINATION
A London physician called on a lady the other day to offer to vaccinate her child. The lady refused. "May I ask," said the doctor, "what your objection is?" The lady said she feared the transmission of disease. "But, madam," said the doctor, "we use the purest calf-lymph." "Then, Doctor," replied the lady, "that settles it, for we are vegetarians, you know."

WILL OPEN ROAD
ON APRIL 1, 1902Clough Happy Over Progress Being
Made by the Beloit, Delavan &
Lake Geneva Road.

H. H. Clough of Elyria, Ohio, the moving spirit in the Beloit, Delavan Lake and Lake Geneva electric road, accompanied by his electrical engineer, George W. Knox of Chicago, was in the city for a short time today.

Mr. Clough reports everything booming along the line. The supplies for the entire road have been purchased and a large portion of them have been delivered by the contractors. Ten cars of the very latest model have been ordered for delivery for the opening of the road on April 1st, 1902. Others will be added to this number as fast as the business demands.

They have about completed the transfer of all the pieces of property on which they held options, from the owners to the company. Only a few tracts still remain unsettled for and about the most of those there is a dispute which may have to be settled in court.

The property on which the power house and yards will be located has been purchased. It is located at the corner of State and Race streets, Beloit, and is a desirable place for their plant.

During the past week the Hayes Bros. Co. have been at work on the grading near Rockford and will start on Monday below Beloit. They expect to have at least six different gangs at work at different places along the line next week and will rush the work along as fast as possible to completion.

Link in Green Bay System.

Oshkosh, Wis., Aug. 10.—The building of an electric interurban railroad to connect this city and Fond du Lac, a distance of eighteen miles, will be begun in a few weeks. All franchises and rights of way have been obtained. The work of construction will be done by the Falkman Manufacturing company of Milwaukee. The line will connect with the Oshkosh and Fond du Lac street car systems, and will complete a system of electric railroad communication between Kaukauna and Fond du Lac, a distance of fifty miles. The whole system will some day form a link in an electric system that shall connect Green Bay and Chicago.

COOKIES DRIVE THREE PERSONS MAD.

Grand Rapids, Mich., Aug. 10.—Mrs. J. P. Neesley and two small children are the victims of a peculiar and mysterious poisoning. At supper last night baker's cookies were on the bill of fare. Mr. Neesley did not partake of them, and was not ill. The others did. They became demented and Mrs. Neesley screamed out that Monroe street was filled with snakes. After vomiting the vision passed away. The little ones were similarly affected, going about feeling for imaginary things. They are still in a demented condition, but will recover.

TRAVELING MAN A SUICIDE.

Pottsville, Pa., Aug. 10.—Peter Berger of Cressona, a traveling salesman for a Schuylkill Haven shoe manufacturing firm, shot himself dead at a hotel in Warren, Pa. He leaves a widow. The act is attributed by his friends to the heat. He was the principal of the high schools at Mahanoy, Plaue, Pa., until about fifteen years ago, which position he relinquished owing to his mind becoming affected

by traveling.

OFFICE SAFE OF DR. MILLS ROBBED

J. O. KIRKPATRICK ARRESTED IN DAKOTA FOR THE JOB.

Young Man Had Been Employed in the Doctor's Office But Suddenly Disappeared—Suspicion Points to Him as Being the Guilty Party—Will be Brought Back.

Jesse Oscar Kirkpatrick, a young man about thirty years of age, who has been in the employ of Dr. James Mills for the last nine months was arrested yesterday at Watertown, S. D., by order of Chief of Police Hogan. Kirkpatrick was arrested on the charge of being the person that robbed Dr. Mills' office safe Tuesday night and secured about fifty dollars in money.

Suspicion points to Kirkpatrick as being the one who robbed the safe, for the reason that the outer door was opened by the combination and Kirkpatrick is the only person that had access to the office and the only person, besides the doctor, that could be familiar with the combination.

Dr. Mills left his office on Tuesday afternoon about 1:30 o'clock in company with his hired man. Before leaving the office he went to the safe and tried the combination to see if it was thrown off and found it to be all right.

Wednesday morning he went to his office and opened the safe in the usual way. He found nothing wrong with the combination, but when the door was opened he was surprised to find the door to the inside cash box had been forced and all of the money except a Canadian five cent piece and four pennies taken. It was evident from an examination of the safe that the man was looking for money only, as a package containing some money and jewelry belonging to Mrs. Mills had been opened and the money abstracted, but the jewelry had not been touched. There were also two gold watches in the safe and they had not been taken.

Suspicion at once rested on Kirkpatrick and Chief Hogan was at once notified of the theft. He immediately started to trace the missing man and found that he had gone to Evansville, Wis., and remained there until Wednesday at 5:30 p.m., where he and his brother started for South Dakota. Their destination was ascertained from the station agent and was found to be Watertown, S. D. A description of the men was at once wired to the chief of the police in that city and word was received from him last evening saying that he had the man in custody and that he had but seven cents on his person.

Kirkpatrick has been in the employ of Dr. Mills for the last nine months. He came here from Richland Center last October and entered Miss Williams' shorthand and typewriting school. He entered the employ of Dr. Mills as hostler and errand boy, and continued in that position until this spring. When Miss St. John left the office Dr. Mills took him into the office as attendant and he continued in that position until he left. He received \$25 per month for his services and boarded with Mrs. Fannie George on North Bluff street. Tuesday afternoon he left the office in company with Dr. Mills and left him at Com McDonald's corner to go up to Mrs. George's for his supper. This was about five thirty o'clock and he did not reach his boarding place, two blocks away, until nearly seven o'clock. The inference is that he went directly back to the office and opened the safe during this time. He felt reasonably sure that he would not be disturbed as he saw saw Dr. Mills lock up the safe and put his books inside and he knew that it was his custom not to open it again during the evening.

Kirkpatrick was to leave Dr. Mills' employ that evening and the doctor, wishing to be sure that his board bill was paid before he left, drove up to Mrs. George's and found out that Kirkpatrick was owing her \$7. The doctor was owing Kirkpatrick \$5 and he advised Mrs. George to have her daughter come to his office that evening at eight o'clock when he was going to pay Kirkpatrick. Consequently Miss Hattie George met Dr. Mills and Kirkpatrick at the physician's office that evening and the young man not only told Dr. Mills to give her the \$5 due him but paid the balance due of \$2 out of his own pocket. He gave Dr. Mills a receipt for the \$5 after which his employer asked him for the keys and he gave them up. He stayed in the office until 8:30 o'clock and rode up to the house with the doctor.

The next morning a patient came in to pay his bill and gave the doctor a ten dollar bill. Dr. Mills went to put the money in the safe and it was then that he learned that the safe had been tampered with and he had been robbed. The lock on the cash drawer had been forced in and there was evidence that the screws on the back of the lock had been loosened previously so that the lock could be forced off without much effort.

A telegram was received this morning from Watertown, S. D., saying that Kirkpatrick would come back to Wisconsin without extradition papers if the state would pay his fare back in case he is proven innocent of the charge.

Prince as "Laureate."

Prince Nicholas of Greece, third son of the king of the Hellenes, was recently designated "laureate" in a dramatic congress organized by the University of Athens. The work which obtained for him the distinction was a comedy entitled "The Reformers," and was judged on its merits, the competitors having to send in their compositions under pseudonyms only.

DR. WOODS' FLATS FINEST IN CITY

EACH WITH SIX ROOMS AND PRIVATE ENTRANCE.

Evans & Morris, Drew, the Plans-McVicar Bros. Did the Plumbing and Contractor Hurd the Carpenter Work—Tenants Have Already Been Secured for the Four Flats

Carpenters, masons painters and plumbers, who have since May been hustling work on the Dr. El. F. Woods flat building at the corner of Court and South Bluff streets have now about complete one of the most model flat buildings in the state of Wisconsin. Second to none does this building rank in Janesville.

Model in every respect is the structure. Facing the park from the east the location could not be improved upon. Located within one block of the business section, and still in the most ideal residence section, the flats will at all times be in demand.

A few weeks ago few people realized that as a Unitarian church the building could be turned into a flat structure which is now considered to be the model one of the city. After purchasing the building Dr. Woods consulted the local architectural firm of Evans & Morris whose spacious offices are located in the Hayes block.

This enterprising firm were not long in submitting plans that were approved by Dr. Woods. Messrs. Evans & Morris' plans called for the removing of the entire upper section of the church above the brick walls.

Another story was added and on this floor two flats are located, the same as the first floor. Each flat is similar consisting of six spacious, airy, light rooms and bath. Two separate entrances are with each flat. The carpenter work and supervision has been entirely in the hands of Contractor Floyd Hurd and has been done in such a satisfactory manner that there is no room for improvement. MAKES AN ATTACK ON STEEL TRUST

Washington Labor Union Assembly
Brings an Action Against U. S.
Attorney-General Knox.

Washington, D. C., Aug. 9.—Quo-warranto proceedings have been begun against Attorney General Knox to show cause why he has not enforced the provisions of the anti-trust law known as the Sherman act. The action is authorized by district assembly No. 66 of the Knights of Labor, and its legislative committee is to look after the details. The action is, of course, aimed at the United States Steel corporation, which it is alleged is operating in violation of the Sherman act. This will hasten a solution of the strike, in the opinion of labor leaders. They say that laws similar or nearly similar to the Sherman law have been enacted in nearly all the states, and in several of them, notably in Ohio and Texas, the county attorneys have the power of the attorney general of the state in quo-warranto proceedings, and that the Amalgamated association has a large fund on hand with which to institute proceedings similar to those to be begun here.

Former Attorney General Frank S. Monnett of Ohio has been retained by the American Antitrust league to begin action before the state and local courts of Ohio.

Gompers Stays Another Day.

Pittsburg, Pa., Aug. 9.—President Gompers of the American Federation of Labor makes the following brief statement:

"I cannot say anything for publication at present. I shall be glad to see any of the press representatives when the time comes to speak, but in the meantime I cannot discuss these matters. I expect to remain in Pittsburg today and will hold another conference with Mr. Shaffer during the day. When we have reached a conclusion I will call you all in and give you our decision."

The Federation of Labor officers are urged to attempt to bring out all labor union men connected with the United States Steel corporation. They cannot order them out, but they can recommend a strike to the heads of the various organizations affected. These officers, if so inclined, will submit the strike proposition to their members to vote on. The matter of striking rests entirely with the men. To pass it up to them there may be a meeting of the Federation executive board on Saturday, either in Pittsburg or Washington. President Shaffer of the Amalgamated wants it held in Pittsburg.

Expect Full Federation Co-operation.

President Shaffer and his brother officials of the Amalgamated association are still engaged in the effort to secure the co-operation of the American Federation of Labor. They say they are sure of obtaining it and that their complete success is thereby assured. Neither President Shaffer nor President Gompers nor any of the men engaged in conference with them has given any intimation of their plans, but it is predicted that they will make the bold stroke of transferring bodily to the Amalgamated association all members of the Federation of Labor who may be affected by the strike. In the iron and steel trades are many men whose labor has not been sufficiently skilled to admit them to membership in the Amalgamated association. The Federation has for some time past been organizing these men, and it is said that there exists an agreement between the Amalgamated association and Federation that in the event of trouble they are to be transferred to the former. If such a plan were carried out it would add thousands of men to the membership of the Amalgamated association.

Say One Mill Is Crippled.

Secretary Williams was the first of the Amalgamated officials to reach the strike headquarters this morning. He claimed that the meeting at Lawrenceville last night had crippled the Clark mill again. He said:

"Our meeting last night was a great success for as a result of it there is but one mill in operation at the Clark plant. That is the 'breakdown' 20-in. mill, and it has been going ever since the strike occurred. If the steel corporation had 400 men in the Clark mill, we have taken 300 of them away from them."

F. M. Shaffer, brother of President Shaffer of the Amalgamated association, was also at headquarters, and he too, claimed that the Clark plant was again crippled as a result of the meeting which he and his brother addressed last night.

The steel corporation made no attempt during the night to reopen the Painter mill and the strikers claim that they blocked the plan to start the plant by winning over the non-union men who had agreed to go to work. The mill officials deny that there has been any interference with the plans and say that in due time the mill will be started up.

Order Not Mandatory.

Milwaukee, Wis., Aug. 9.—The strike order of President Shaffer has been received here, through Vice President Davis, by President Redfern of the local lodge. The men do not look up on the order as mandatory, and will not walk out until they have held a meeting, probably on Sunday. It is likely that at this meeting permission will be asked of the national president to remain at work, and the local conditions will be explained. If the national president then insists on calling the men out the local lodge will go or a strike.

Great Fire in Australia.

Victoria, B. C., Aug. 10.—News is received by the steamer Moana of the destruction by fire of the departmental stores of Anthony Horner & Sons in Sydney, Australia. These monster department stores, which are among the largest in the world, employing over 1,500 hands, and serving an average of 30,000 customers daily, were wiped out by fire on July 13 and in the conflagration four of the employees were burned to death and one lost his life by jumping from the roof of the burning building while the firemen were endeavoring to raise a ladder to save him. The loss was over \$3,000,000 in all.

Flames Sweep Iowa Town.

Elma, Iowa, Aug. 9.—News has reached here by telephone that the main business portion of Lime Springs, Iowa, was wiped out by fire early in the day. The fire occurred between 2 and 3 o'clock and within two hours the larger portion of the business district was consumed. Loss \$150,000.

Rock-a-Bye Baby

These are sweet words, but how much pain and suffering they used to mean. It's different now. Since Mother's Friend has become known, expectant mothers have been spared much of the anguish of childbirth. Mother's Friend is a liniment to be applied externally. It is rubbed thoroughly into the muscles of the abdomen. It gives elasticity and strength, and when the final great strain comes they respond quickly and easily without pain. Mother's Friend is never taken internally. Internal remedies at this time do more harm than good. If a

woman is supplied with this splendid liniment she need never fear rising or swelling breasts, morning sickness, or any of the discomforts which usually accompany pregnancy.

The proprietor of a large hotel in Tampa, Fla., writes: "My wife had an awful time with her first child. During her second pregnancy, Mother's Friend was used and the baby was born easily before the doctor arrived. It's certainly great."

Kodol Digests what you Eat Dyspepsia Cure

Many digestive compounds and tablets are recommended to cure dyspepsia by digesting food with the pepsin they contain. Most of these possess merit, but they all fail in many cases, because pepsin digests only albuminous foods, such as eggs and meat. But we must eat more than eggs and meat; and some of the worst cases of dyspepsia are caused by indigestion of fats and starches and other foods which pepsin cannot digest.

There is one preparation that contains all the digestants. It is KODOL DYSPEPSIA CURE, which digests what you eat, and has been used with remarkable success,—not a single failure to cure being reported from the many thousands who have used it.

J. E. Peabody, Pitcairn, N. Y., says: "The first dose of Kodol Dyspepsia Cure relieved my son of stomach and heart trouble, and four bottles of it cured him. I heartily recommend it."

It can't help but do you good

Prepared by E. C. DeWitt & Co., Chicago. The 11 bottle contains 2½ times the 50c. size.

Start Girls Right!

Many beautiful girls become invalids for life, because at the crucial period of puberty they pay no attention to the laws of health. Mothers should protect their daughters' health by giving them necessary information and proper treatment. When the menses come on a girl unawares in her inexperience she is either frightened into convulsions, or scared into trying to check the flow. Many girls have checked the flow and it has never started again. And as a result they have grown pale-faced, with "crow-wicks" on their cheeks, and dark half-moons under their eyes. A dose of

WINE OF CARDUI

taken every morning after a girl is twelve years old will bring the menses on properly and keep them regular. It will help her to develop into attractive womanhood and equip her for the duties of wife and motherhood. All druggists sell \$1.00 bottles of Wine of Cardui.

The Hollywood, Asbury Park, N. J., February 8, 1900. I read your advertisement regarding Wine of Cardui in the Baltimore American, and it so favorably impressed me that I wired to Baltimore during the holidays I purchased a bottle of it for my adopted daughter, who was suffering with female troubles. She had been under the doctor's care for some time, and when her periods would come on her suffering was something terrible. I induced her to try it and the first dose brought on her menses. She took it regularly according to the directions, and was greatly relieved. To use her own words, "it saved my life." J. WESLEY CROSS.

SUNDAY SCHOOL RALLY ON AUG. 29

Program Being Prepared for the Coming Event at the Court House Park.

The committee of arrangement for the Sunday school rally at Court house park on Augt 29th are preparing a program that will be of interest to all classes, sizes and ages. The music will be a special feature, a male quartet, the Milton Ladies' quartet, the Beloit Ladies' quartet, Evansville High school orchestra, the Beloit High school band, are expected to be in attendance. The Hanover Sunday school expect to bring along with them the village band. There will be exercises by the various schools. It is hoped that every Sunday school in the county will be represented. The local committee will be announced next week. Many young people will enjoy hay rack and straw rides on this occasion.

Prizes will be given to the largest delegation based on the following: Enrollment of the school to be estimated from the total number enrolled between July 1st and Augt 12th. My enrollment is meant all who have attended during the time above mentioned. Schools competing for prizes must report number enrolled with name of the school, not later than August 26th to W. S. Jeffris, Janesville.

PICKING OUT THE FOOTBALL TEAM

Coach Phil King Sends Out Notices to Candidates to Report for Practice on September 14.

Madison, Wis. August 10.—(Special)—Candidates for this year's Wisconsin football team have been notified by Coach Phil King to report for practice on September 14. Notices have been sent out to about 150, including last year's team and substitutes, and favorable responses are expected from at least half of these. High school players who have made good showings and are coming to the university comprise the most of the new men invited to try for the team.

Three of the strong men on the Wisconsin team, Jerry Riordan, guard, and Paul Tratt, quarterback, who have played their four years, and Roy Chamberlain, guard will all be missing from the team this year, and the fact that their places are to be filled will be a stimulus to the new men. Coach King says he sees no new stars in this year's horizon as yet, and that all the places will be open to competition. One of the hardest games of the season will be that with Minnesota.

S. J. CUCKOW FARM SUFFERS BY FIRE

Stock Barn With About 25 Tons of Hay and Valuable Machinery Was Totally Destroyed.

August Schrandt, who lives on the farm belonging to S. J. Cuckow estate in the town of Bradford, near Emerald Grove suffered a severe financial loss by fire last evening. The origin of the fire is unknown but it started in a large stock barn valued at \$1,000 at about 9 o'clock. The flames spread rapidly and the stock barn with about twenty-five tons of hay and considerable valuable machinery was totally destroyed. The granery and its contents, which amounted to about 800 bushels of grain, the corn crib, hen house and several outbuildings were consumed by the flames. Nothing was saved but the house and the horse barn and those only by hard work.

The fire attracted much attention and farmers hurried to the scene from every direction. A large crowd gathered quickly and if there had been water close at hand some of the property would have been saved without doubt. As it was, the spectators were practically helpless. The financial loss is a large one. The buildings were partially insured, but there was no insurance on the hay, grain or machinery.

IN THE MYSTERY OF DEATH.

Willard Tarrant Funeral. Funeral services for the late Willard Tarrant will be held from the home of his parents, Mr. and Mrs. Henry Tarrant, on Ruger avenue, Sunday afternoon at one o'clock. The Rev. W. A. Hall will officiate. The interment will be at the cemetery in the town of Turtle.

Funeral of John Cummings. Funeral services for the late John Cummings will be held from the home, 173 Washington street, Sunday afternoon at 2:30 o'clock. Rev. A. H. Barrington, rector of Christ Episcopal church, will be the officiating clergyman and Janesville Lodge No. 55. F. & A. M. will have charge of the burial service. The masons and W. H. Sargent Post No. 20, G. A. R., will attend the funeral as organizations.

Proposals to Build School House. Proposals to build a school house at Hanover, Wis., will be received by the building committee until Thursday, August 15, 1901 at one o'clock p.m. Plans and specifications at the office of F. O. Uhling, Hanover, Wis. The building committee reserve the right to reject any or all bids. Address all bids to F. O. Uhling, chairman Building Committee, Hanover, Wis.

Fishes Grateful for an Umbrella. In the extreme heat of the summer some kindhearted observer noticed that the fish and turtles in the public fountain at Woodstock, N. J. seemed to suffer from the fierce sun. To relieve the poor creatures the kindly one fastened an umbrella over the water and swimmers at once sought its shade, seeming very grateful indeed.—Philadelphia Record.

FORESTERS MAKE GREAT PROGRESS

Treasurer Collins' Report to the National Convention Which Meets in Detroit Next Week.

Milwaukee, Wis. August 10.—An interesting official report will be presented to the international biennial convention of the grand high court of the Catholic Order of Foresters at Detroit next week by T. E. Callen of this city, grand high treasurer of the order.

The total receipts during the period specified amounted to \$1,912,480.45, of which \$1,725,352.75, being received for the general fund, covering all other departments. In addition to this sum received there was on hand Jan. 1, 1899, the sum of \$112,756.63, making a grand total in receipts reported by the grand high treasurer of \$2,025,237.08.

The total disbursements in the same period were: On death certificates in about 3,000 cases, \$1,544,200, and from the general fund, \$175,547.53; total amount invested in disbursements of \$1,928,759.80, leaving on hand on July 1, 1901, a total of \$96,477.28.

Sex Census of Three States.

Washington, D. C., Aug. 10.—The census bureau today issued a bulletin on the sex, general nativity and color of the population of Michigan, Minnesota and Mississippi. They show for Michigan, 1,248,905 males, and 1,172,077 females 1,879,328 native born people and 541,613 foreign born; 2,398,563 whites, of whom 1,858,367 are native born. Minnesota has 932,490 males and 818,904 females; 1,246,076 native born, and 305,318 foreign born; total white, 1,737,036, including 1,232,101 native born. The Kazoo

is simply a Hose Supporter and Suspender combined; so arranged that the strain is equal back and front, thereby avoiding the suspender slipping off the shoulder or drawing up behind, or down in front, thus it can be used either as a supporter or a suspender. The hose attached is adjusted by a slide and a snap loop, thereby avoiding the necessity of adjusting the hose each time the boy dresses.

The Kazoo

Simply place the fastenings on the hose at the desired points, then leave them thus placed till the hose are changed, merely detaching from the suspender part as shown in cut of boy dressing.

They are made in sizes from 4 to 14. Price 50 cents and 75 cents according to quality. The Kazoo will outwear a half dozen pair of ordinary supporters.
